Material:

Copper sheet used in the fabrication of copper laminates conforms to ASTM B 370-03 (110 Alloy).

Copper-Tuff SA™

Copper-Tuff™ SA is a self-adhering copper fabric flashing. A patented super-strong polymer coating is bonded to a copper sheet for maximum performance. A fiberglass scrim is embedded between this coating and copper for excellent puncture and tear resistance. Adhesive backed with a removable release liner for easy application.

- Copper thru-wall or surace mount flashing.
- Available with 3, 5, or 7 oz. copper sheet.
- UV-resistant for up to 180 days.
- Adhesive-backed with removable release liner.
- Asphalt-free composition compatible with a wide variety of sealants.
- Available in widths from 12"-36", other widths available upon request.
