

DRAWINGS FOR ILLUSTRATIVE PURPOSES ONLY

### Spira-Lok®

A one-piece, flexible stainless steel wall tie for pinning masonry to new or existing walls. Also suitable for temporary support for lintel and shelf angle replacement. The dry-set technique may involve various tie diameters, drill bits and installation tools.

An on-site survey should be carried out prior to project tendering to determine material strength, tie diameter & length, pilot hole size and appropriate drilling technique.

Spira-Lok® Asymmetrical Ties are dual diameter Spira-Lok® Stainless Steel Helical Wall Ties designed for use in connecting soft veneer materials to a hard back-up.

See Blok-Lok web site for Spira-Lok Installation Video.
