

Concrete Inserts

HW-340: Malleable Iron Wedge Inserts

DRAWINGS FOR ILLUSTRATIVE PURPOSES ONLY

Material:

Blok-Lok Wedge Inserts are made from malleable iron and conform to ASTM A 47 Grade 32510.

Finish:

Hot Dip Galvanized: ASTM A 153 (zinc coating 1.5 oz/ft²).

Technical Data:

Shear	Tension	Concrete Strength	Torque
16,650 lbs.	13,093 lbs.	4,125 psi	150 ft./lbs.

*Values listed above are ultimate capacities in pounds which should be reduced by a minimum safety factor of three to determine the allowable working loads.

*Minimum of 1 $\frac{1}{2}$ " of concrete under bottom of insert.

Accessories: Askew Head Bolt, Nut, and Washer

The beveled head of the askew head bolt engages the internal wedge shape of a concrete insert and produces an automatic tightening action when a load is placed on it.
