

DRAWINGS FOR ILLUSTRATIVE PURPOSES ONLY

**CELLVENT** made from flexible polypropylene-copolymer plastic, creates an unobstructed passage for water and moisture to exit masonry cavity walls.

- The honeycomb design restricts ingress of insects and other debris.
- CELLVENT allows passage of moisture up to its 2 ½" height, important in the event of mortar droppings at bottom of cavity.
- CELLVENT is suitable for top of wall venting.
- Polypropylene tested in conformance with ASTM D2240, D790B, D638, and D1238B.

**Color:**

- Gray
- Clear
- Almond
- Tan
- Cocoa

**Size:**

- Standard (3/8" thick x 3 ¾" wide x 2 ½" tall)
- Jumbo (3/8" thick x 3 ¾" wide x 3 ½" tall)
- Custom 3/8" x \_\_\_\_\_ x \_\_\_\_\_
